

CHIPPING AND PITCHING EXERCISE

Lean and Drop

Skill:
Category:

Chipping
Hold

To encourage the pupil to setup for the angle of attack and strike.

Encourage the pupil to “lean” their weight slightly toward the foot nearest to the target. At the same time monitor that the handle of the club is opposite the inside of the leg nearest to the target by dropping it and checking where it falls (it should fall onto the inside of the thigh nearest to the target).
